

Artifact: Value Speech Outline: To inform my audience that my job is a value to me

Course: Speech 151

Goal: Effective Communication

For Effective Communication I choose my value speech outline, something that is a value to me, from Speech 151. I decided to use this speech outline because it showed on how I was able to communicate in front of my classmates that my job teaches valuable resources that I need in my everyday activities. I was able to inform the audience that my job teaches me how to be a leader, patience, and solve-problems. Thus, Effective Communication was used in this speech outline because I was able to deliver, mention, and describe on how my job taught me those helpful skills that I grew from Regal Showplace 16.

Strengths

- **The outline is very detailed, clearly demonstrating the thoughts communicated by the student in the speech.**
- **The writer chooses a point of view and clarifies what they had learned through life experience**
- **The writing in the outline invokes vivid images, helping us clearly imagine a day in the life of the writer**

Opportunities

- **A video of the speech would more clearly demonstrate the student's communication skills compared to the speech outline.**
